

Ann Buehl

Orfordville, WI 53576

I am the District Library Media Director for the Parkview School District. I have filed e-rate since the program began. Our teachers have consistently integrated technology into our curriculum. We have SmartBoards in every classroom in our district. We have iPad carts in the elementary and primary schools. We have 1:1 iPads for our 7-12th graders. We are trying to keep up with technology changes, but the broadband hasn't done the same. We need increasing broadband to support our curriculum incentives. We have the infrastructure that we do because of the erate program; now we need erate to support the increases in broadband for the curriculum and technology we have integrated into student learning. Thank you.
